No. 66-1248.

These Automatic Sofa Beds are the only kind that operate without the necessity of moving them from the wall. The method of operation is simple and mechanical, and the fixtures are guaranteed never to get out of order. There is nothing more complicated about them than the simple raising of these at (**slowly** until you hear the latches catch), which automatically brings the box for bed clothes forward, and lowers the back at the same time; afterwards the seat is lowered by first pushing it from you to release the latches and then lowering toward you. In city dwellings where economy of space is desired, or in homes where the lack of a guest chamber is often a matter of perplexity, the Sofa Bed will be found of wonderful convenience and utility. During the day it serves every purpose of a beautiful sofa, and at night, or whenever occasion may require it, a few seconds suffice to change it into a perfect and full-sized bed, 73 x 50 inches.
